WHO WE ARE

We at Hangzhou Dinghui Fashion Co., Ltd. – established in Hangzhou, China in 2003 – are initially a manufacturing company being an expert in the development and the manufacturing of woven garments and outerwear, with a special love for denim. However, we are not just an order taker. We are specialized in the total-package approach.

The background of the slide is a close-up photograph of various fabric swatches. The fabrics are in shades of red, orange, and grey, with some showing a textured or ribbed pattern. The swatches are arranged in a way that creates a sense of depth and layering. A semi-transparent dark grey rectangle is overlaid on the left side of the image, containing the text.

OUR SITES

Our headquarters is located in arguably China's most beautiful city: Hangzhou. Since we have numeral manufacturing sites specialized in every part of the production stage – from fabric and garment manufacturing, to finishing, washing and trimming – our specialist sites are located all throughout China. Additionally to our Chinese sites, we manufacture and source new factories internationally according to the regions specialism and the factories expertise.

INDIGO GENIUS

At Dinghui we are proud to say that we are experts in denim. A couple of years ago we established the Indigo Genius lab. The lab is run by two denim-obsessed specialists and includes a launderette studio and all denim fabrics imaginable. Indigo Genius encompasses all facilities to develop almost all denim washings possible.
